Proposed resolutions and reference matters

Proposal No.1: Appropriation of Surplus

The appropriation of retained earnings will be as follows.

In light of the above, for the time being only the year-end dividend will be planned, and the year-end dividend of ¥4 per share held will be paid to shareholders of record at the end of the fiscal year.

As a result, we have entered into limited liability agreements with Tomohiro Obata and Hiroshi Kamada that limit our liability for indemnities up to the amount stipulated by law. If Proposal No. 2 is approved and both appointments are approved, a limited liability contract similar to the above will be concluded as an outside Director.

Proposal No. 5: Establishment of monetary remuneration for Director (excluding Audit and Supervisory Committee Member)

At the extraordinary general meeting of stockholders held on March 31, 2017, the amount of compensation for our Director was resolved to be within 150 million yen per year, which is the current date.

Now, subject to the approval and approval of Proposal No. 2 "Partial Amendments to the Articles of Incorporation," we will shift to a corporation maintaining Audit and Supervisory Committee Member Committee.

Accordingly, in order to establish the amount of remuneration for Director (excluding Director that are Audit and Supervisory Committee Member) as a result of the transition to a corporation maintaining the board of Audit and Supervisory Committee Member, we will abolish the provisions concerning the amount of remuneration for the present Director and, in consideration of various circumstances including economic conditions, will determine that the amount of monetary remuneration for Director (excluding Director that are Audit and Supervisory Committee Member) shall not exceed ¥350 million per annum (of which, the amount of external Director shall not exceed ¥50 million per annum).

If this proposal is approved, Director meeting after the conclusion of this general meeting is scheduled to change Director (excluding Audit and Supervisory Committee Member) part of the decision-making policy regarding the content of individual remuneration for Director to be consistent with the approved content.

This agenda determines the remuneration framework for Director (excluding Director that are Audit and Supervisory Committee Member) to the extent reasonable, taking into account economic conditions, our size, the number of Director and the level of other companies. In addition, as mentioned above, we are planning to change the decision-making policy regarding the content of Director individual remunerations, etc., and in order to determine the content of individual remunerations, etc. for Director in accordance with the changed policy, we have determined that this proposal is both necessary and reasonable.

In addition, the salary for an employee Director concurrently serving as an employee shall not be included in the amount of compensation for a Audit and Supervisory Committee Member (excluding a salary for an employee). If Proposal No. 2 "Partial Amendments to the Articles of Incorporation" and Proposal No. 3 "Appointment of seven Director (excluding Director as Audit and Supervisory Committee Member)" are approved and passed as originally proposed, the number of Director (excluding Audit and Supervisory Committee Member) will be seven (including two outside Director). There are six Director before the change.

This proposal shall become effective upon the entry into force of Proposal No. 2, "Partial Amendments to the Articles of Incorporation."

Proposal No. 6: Establishment of monetary compensation for Director which is a Audit and Supervisory Committee Member

Subject to the approval and approval of Proposal No. 2 "Partial Amendments to the Articles of Incorporation," we will move to a corporation maintaining Audit and Supervisory Committee.

Accordingly, upon the transition to a corporation maintaining the board of Audit and Supervisory Committee Member, the amount of compensation for Director which is Audit and Supervisory Committee Member shall be not more than ¥60 million per annum, taking into account the duties and responsibilities of Director.

This proposal determines Audit and Supervisory Committee Member compensation framework for Director within a reasonable scope, taking into account the responsibilities of Director who are Audit and Supervisory Committee Member and the level of compensation (excluding Director who are), and we judge that it is necessary and appropriate.

If Proposal No. 2 "Partial Amendments to the Articles of Incorporation" and Proposal No. 4 "Election of Three Audit and Supervisory Committee Member Members of Director" are approved and passed as originally proposed, three Director will be Audit and Supervisory Committee Member.

This proposal shall become effective upon the entry into force of Proposal No. 2, "Partial Amendments to the Articles of Incorporation."

Proposal No. 7: Decisions on remuneration for short-term stock remuneration for directors other than directors who are Audit and Supervisory Committee Members

The amount of remuneration for directors other than directors who are members of the Audit and Supervisory Committee will be less than ¥350 million per annum (of which the amount of remuneration for outside directors is less than ¥50 million per annum, but does not include the salary for employees and directors who serve concurrently as employees) if we approve Proposal No. 5 as proposed in the original Proposal. Now, we request that directors other than directors who are members of the Audit and Supervisory Committee (excluding outside directors; hereinafter referred to as the "Target Directors") introduce incentives to achieve sustainable improvement of our corporate value by clarifying the linkage between the remuneration of directors and the company's business performance and the value of our stockholders. At the same time, we request the introduction of the new remuneration system (hereinafter referred to as the "Share Remuneration" in Proposal No.8) for the purpose of promoting the further improvement of corporate value between our Target Directors and shareholders.

At the meeting of the Board of Directors held on February 12, 2021, we established a policy for determining individual remuneration and other matters for each director. If the proposal is approved, the contents of the policy will be changed as described in Proposal No.9 at the end of the agenda. The Proposal is required and reasonable to provide Target Directors personal remuneration, etc. in accordance with the Policy, and accounts for approximately 0.07% of the total number of outstanding shares (as of June 30, 2021) that are issued or disposed of in Target Directors per year in accordance with the Proposal. For this reason, I believe the content of this agenda proposal is reasonable.

If Proposal No. 3 is approved and passed in accordance with the draft, Target Directors will be five.

In addition, this proposal shall become effective on the condition that the amendment to the Articles of Incorporation takes effect on Proposal No. 2.

Based on this proposal, the maximum amount of remuneration for Vesting period to be paid to Target Directors shall be ¥50 million or less, and the total number of Our stock for Vesting period to be issued or disposed of by Target Directors shall be 15,000 or less. In the event the total amount of grants or the total number of granted shares calculated according to the calculation method stipulated in 3(1) below is likely to exceed the maximum amount or the maximum number of shares, the number of shares to be delivered to each Target Directors shall be reduced by a reasonable method, such as pro rata, to the extent not exceeding the maximum amount or the maximum number of shares. iii. Position Adjustment Ratio

Proposal No. 9: Decisions on Remuneration for Directors Who Are Audit and Supervisory Committee Members in Relation to Share Remuneration

The amount of remuneration paid to Directors who are Audit and Supervisory Committee Members will be no more than ¥60 million per annum if Proposal No. 6 is approved in accordance with the draft proposal. However, in order to provide incentives for Directors who are Audit and Supervisory Committee Members (hereinafter referred to as "Target Directors") to prevent damages to our corporate value and maintain trust through the sharing of value with shareholders, please approve the introduction of a new stock-based remuneration system (hereinafter referred to as "This system") for Target Directors in a framework separate from the above-mentioned remuneration framework.

This proposal is necessary and reasonable in order to provide Target Directors individual compensation, etc. in accordance with the above objectives, and the total number of outstanding shares up to the maximum number of shares to be issued or disposed of by Target Directors in one year based on this proposal.

In addition, in the event the total number of outstanding shares of the Company increases or decreases as a result of the consolidation of shares or the split of shares (including the gratuitous allotment of shares. The same shall apply hereinafter) after the date on which this proposal is approved and passed, the maximum number of shares shall be adjusted by multiplying the ratio of the consolidation or split (or allotment). In addition, the specific timing and allocation of payments to individual Target Directors will be determined through Target Directors consultations.

3. Content of Remuneration, etc. in This system

(1) Calculation of Remuneration in This system

In This system, we will determine the number of Our stock to be delivered to the respective Target Directors in accordance with the calculation methods set forth below.

Hereinafter referred to as the "Base Number of Shares Delivered") by the term of office ratio and the position adjustment ratio, and shall be calculated according to the following formula. Provided, however, that this shall be within the maximum number of shares stipulated in 2 above.

$$\begin{array}{l} \text{Number of Shares} \\ \text{Last Delivered} \end{array} = \begin{array}{l} \text{Base Number of Shares Delivered(i)} \times \text{Percentage of tenure (iii)} \times \text{Position} \\ \text{Adjustment Ratio (iii)} \end{array}$$
